FROM: Tom Munson, Senior Reclamation Hydrologist *TM*

SUBJECT: Site Inspection, Utah Mineral & Fossil, Solar Wind, S/023/061, Juab County, Utah

Date of Inspection: May 3, 2004
Time of Inspection: 10:00 a.m.
Conditions: Sunny, warm
Participants: Tom Munson - DOGM

Purpose of Inspection: Annual inspection

Getting to the site: The site is located west of Dugway Pass

Observations:

A site consists of a small disturbance, probably less than a couple of acres in size, including the road. There had been no new disturbance since my last inspection. The pit itself had been partially filled in. There was a backhoe onsite which had flat tires. Other than that, it looked like it was in okay repair.

The BLM wanted Mr. Holfert to remove the backhoe from the site, which has not been done to date.

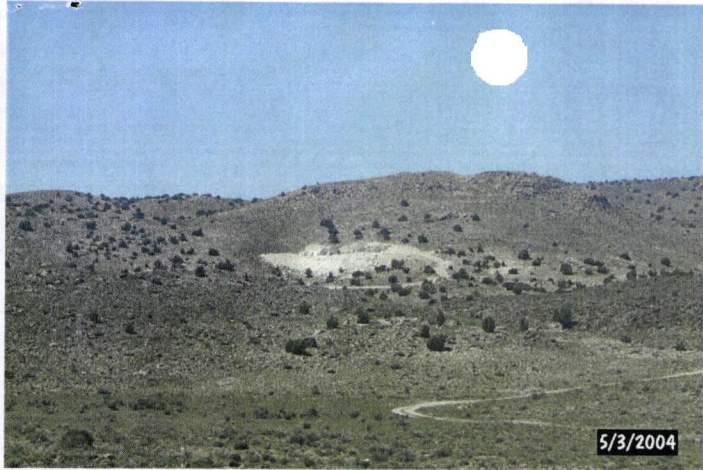

Conclusions and Recommendations:

DOGM to continue annual inspections.
